Traditional Knowledge in Modern India Nirmal Sengupta,2018-09-29 This book demonstrates how traditional knowledge can be connected to the modern world. Human knowledge of housing, health and agriculture dates back thousands of years, with old wisdom developing and becoming modern. But in the past few decades, global communities have increasingly become aware that some of this valuable knowledge has fallen by the wayside. This has sparked systematic efforts at the local, national and global levels to connect this neglected knowledge to the modern world. It discusses the origin of the topic, its importance, recent developments in India and abroad, and what is being done and still needs to be done in order to preserve India's traditional knowledge. The discussions address a broad range of fields and organizations: from Basmati rice to Ayurvedic cosmetics; from traditional irrigation and folk music to modern drug discovery and climate change adaptation; and from the Biodiversity Convention to the WHO, WTO and WIPO.

Celebrity Chris Rojek,2004-11-01 In contemporary society, the cult of celebrity is inescapable. Anyone can be turned into a celebrity, and anything can be made into a celebrity event. Celebrity has become a part of everyday life, a common reference point. But how have people like Elvis Presley, John Lennon, Bill Clinton or Princess Diana impressed themselves so powerfully on the public mind? Do they have unique qualities, or have their images been constructed by the media? And what of the dark side of celebrity - why is the hunger to be in the public eye so great that people are prepared to go to any lengths to achieve it, as numerous mass murderers and serial killers have done. Chris Rojek brings together celebrated figures from the arts, sports, politics and other public spheres, from O.J. Simpson and Marilyn Monroe to Hitler and David Bowie, and touches on many movements and fads, including punk, rock-and-roll and fashion. Rojek analyzes the difference between

ascribed celebrity, which derives from bloodline, and achieved celebrity, which follows on from personal achievement - the difference between Princess Margaret and, say, Woody Allen. He also shows how there is no parallel in history to today's ubiquitous living form of celebrity, powered by newspapers, PR departments, magazines and electronic mass media.

Peak Anders Ericsson, Robert Pool, 2016-04-05 "This book is a breakthrough, a lyrical, powerful, science-based narrative that actually shows us how to get better (much better) at the things we care about."—Seth Godin, author of *Linchpin* "Anyone who wants to get better at anything should read [Peak]. Rest assured that the book is not mere theory. Ericsson's research focuses on the real world, and he explains in detail, with examples, how all of us can apply the principles of great performance in our work or in any other part of our lives."—*Fortune* Anders Ericsson has made a career studying chess champions, violin virtuosos, star athletes, and memory maven. Peak distills three decades of myth-shattering research into a powerful learning strategy that is fundamentally different from the way people traditionally think about acquiring new abilities. Whether you want to stand out at work, improve your athletic or musical performance, or help your child achieve academic goals, Ericsson's revolutionary methods will show you how to improve at almost any skill that matters to you. "The science of excellence can be divided into two eras: before Ericsson and after Ericsson. His groundbreaking work, captured in this brilliantly useful book, provides us with a blueprint for achieving the most important and life-changing work possible: to become a little bit better each day."—Dan Coyle, author of *The Talent Code* "Ericsson's research has revolutionized how we think about human achievement. If everyone would take the lessons of this book to heart, it could truly change the world."—Joshua Foer, author of *Moonwalking with Einstein*

Overload Erin L. Kelly,Phyllis Moen,2021-10-05 Contemporary ways of working are not working, even for professionals and managers in what used to be considered good jobs. Companies are responding to global competition and pressure from financial markets by adopting management practices and staffing strategies that push workers to do more and more with less and less. New technologies facilitate always-on availability, normalizing 24/7 job expectations. This new intensity spawns chronic stress in the form of overload - feelings of too much to do and too little time to do it. Kelly and Moen argue this way of working is both unhealthy and unsustainable. Employees burn out, quit, or lack the time or energy to bring their best contributions to their jobs. Organizations lose out along with individuals, families, and communities. This book moves beyond familiar tropes about 'work-life balance' to argue that the problem lies not in the effort to 'balance' but in the very nature of contemporary work. Overload harms workers of all genders, ages, and life stages as well as the bottom lines of corporations. What can be done? Kelly and Moen draw on five years of research, including a major field experiment, in a Fortune 500 firm to describe a new approach to making work more sane and sustainable. The initiative, called STAR, prompts imaginative yet feasible changes (or work redesigns) that improve employees' health, wellbeing, and ability to manage both their personal and their work lives. They find the firm also benefits through increased job satisfaction and reduced turnover

Uttam Kumar Sayandeb Chowdhury,2021-12-30 'There is none like Uttam and there will be no one to ever replace him. He was and he is unparalleled in Bengali, even Indian cinema.'-Satyajit Ray, Oscar-winning Indian film-maker Actor and

screen icon Uttam Kumar (1926–1980) is a talismanic figure in Bengali public life. Breaking away from established codes of onscreen performance, he came to anchor an entire industry and led the efforts to reimagine popular cinema in mid-20th-century Bengal. But there is pitifully less knowledge about Uttam Kumar in the learned circles—be it about his range of style and performance; the attractions and problems of his cinema; his roles as a producer and patriarch of the industry; or his persona, stardom and legacy. The first definitive cultural and critical biography of this larger-than-life figure engages meaningfully with his life and cinema, revealing the man, hero and actor from various, often competing, vantages. The conceptual aim is to locate a star figure within a larger historical and cultural context, and to enquire into how a towering image was mobilised for an ever-greater, wholesome, popular and even, at times, radical and progressive entertainment. A complimentary *métier* of this work is to explore why and how this star persona would go on to reconstitute the *bhadrolok* Bengali visual and cultural world in the post-Partition period. But above all, this is the story of a clerk who became an actor, an actor who became a star, a star who became an icon and an icon who became a legend.

The Devil Soldier Caleb Carr, 1992 A courageous leader who became the first American mandarin, Frederick Townsend Ward won crucial victories for the Emperor of China during the Taiping Rebellion, history's bloodiest civil war. Writing Manuals for the Masses Anneleen Masschelein, Dirk de Geest, 2020-12-15 This open access collection of essays examines the literary advice industry since its emergence in Anglo-American literary culture in the mid-nineteenth century within the context of the professionalization of the literary field and the continued debate on creative writing as art and craft. Often dismissed as commercial and stereotypical by authors and specialists alike, literary advice has nonetheless remained a flourishing business, embodying the unquestioned values of a literary system, but also functioning as a sign of a literary system in transition. Exploring the rise of new online amateur writing cultures in the twenty-first century, this collection of essays considers how literary advice proliferates globally, leading to new forms and genres.
